Omschrijving

The Catellani & Smith Medouse W is a wall lamp with a hemispherical lamp shade made of glass. The lamp shade has a diameter of 30 cm and is offered in the versions green or transparent. A vertical brass rod with a height of 44 cm passes through the shade. When the wall light in green is switched off, it appears dark green. As soon as it is switched on, it appears light green transparent. This wall light has protection class IP64 and is therefore dust-tight as well as protected against splash water on all sides. This makes the lamp also suitable as an outdoor light. An LED with an output of 17 watts and a colour temperature of 2,700 Kelvin extra warm white is included as illuminant.
