

Anglepoise

Original 1227 Lamp with Wall Bracket

Oberfläche

- chroom
- zwart
- grijs
- wit

Technical details

Land van fabricage	 Verenigd Koninkrijk
fabrikant	Anglepoise
ontwerper	George Carwardine
jaar	2012
bescherming	IP20
Omvang van de levering	LED 230 Volt
voltage geschiktheid	110 - 240 Volt
Projectie in cm	88
materiaal	aluminium, het smelten, textiel
kabellengte	200 cm
dimmen	dimbaar op locatie
base/versie	E27
schakelbaarheid	aan de lijn
Vermogen (max. Watt)	20 Watt
LED	inclusief
Schaduw diameter	14 cm
schermhoogte	16 cm
bulb vervangen:	ter plaatse zelf
lichtverdeling	direct
Dimensions	H 55 cm

Omschrijving

The Anglepoise Original 1227 Lamp with Wall Bracket is a wall lamp with a movable articulated arm. Thanks to proven tension spring technology, the articulated arm can be readjusted again and again. Cause of this, it also retains any set position. The wall mounted lamp is given additional flexibility by the rotatable and tiltable lamp shade. Both the lamp shade and the articulated arm are made of aluminum. The wall bracket is made of cast iron. Industrial designer George Carwardine developed the tension spring technology used in this lamp back in the 1930s. Since then it has been used in numerous Anglepoise lights. The surfaces linen white, dove grey and jet black are available. The lamp can be connected via a cable with plug. An on/off switch is integrated on the 200 cm long textile braided cable. The wall light can be operated with LED retrofit lamps or compact fluorescent lamps. A table base in the matching surface is included in the scope of delivery.
