Omschrijving

The Nyta Tilt S is a swivelling and rotating pendant lamp. Its lamp shade is made of matt lacquered aluminum and has a diameter of 18 cm as well as a height of 16 cm. It can be rotated 360 degrees and tilted 110 degrees along the elongated opening on the shade. This allows the light of the pendant lamp to be redirected again and again. The shade is available in white, grey and black. For all surfaces, the canopy is in the matching surface to the shade. From the inside, the shade is always white. The cable is offered in six colours: white, black, red, grey, light blue and light green. A 300 cm long cable is included, on request the lamp is also available with a 500 cm long cable. The cable can be shortened if necessary. The pendant light can be operated with LED retrofit or halogen lamps. The Tilt S has already won many design awards.
