Omschrijving

The Nyta Tilt S Brass is a pendant lamp with a lamp shade made of solid brass. The brass is polished on the outside and brushed on the inside. The pendant lamp can be repositioned again and again because its shade can be tilted or rotated along an elongated opening. It can be tilted by a maximum of 110 degrees and rotated by 360 degrees. A self-fixing suspension ensures a firm hold of the lamp. The canopy and the textile cable are black. The cable is available in lengths of 300 cm or 500 cm. It can be shortened if necessary. The Tilt S Brass can be operated with halogen lamps or LED retrofit light sources. The pendant lamp has already won numerous design awards.

The elaborate manufacturing process of the Tilt S Brass combines traditional craftsmanship with modern technology. The contour of the shade is cut out with a 3D laser. The surfaces of the shade are then polished, brushed and sealed. The use of the genuine, warm material brass creates an outstanding brilliance of the Brass lamps from Nyta.
