Omschrijving

Designed by designers Pio and Tito Toso, the Stilnovo Oxygen W1 is the declination of a wall lamp with a minimalist design. The wall mounting, almost imperceptible, supports an illuminating body with a functional profile; the base line flexes slightly upwards, allowing a glimpse of the aesthetically pleasing effect of the weave. The elegance of black is contrasted by the minimalism of white and the vivacity of yellow and pastel blue: polyurethane lamp shades in different colours to satisfy the most sophisticated tastes. Inside, the PMMA diffuser features micro incisions designed to deflect the light beam emitted by the topLED sources arranged circularly on the sides. This is the secret of OptiLight Technology™. The wall light can be dimmed on site with a trailing edge phase dimmer. A DALI dimmable version is also available on request. With an optionally available Casambi module, the wall light can also be dimmed via Smartphone App. A family with unmistakable design, awarded with the Red Dot Award 2017.
