Omschrijving

The Vistosi Damasco SP M pendant lamp is made of mouth-blown crystal glass. During production, threads of melted crystal glass are manually placed around the glass diffuser to obtain a special organic structure. The lamp emits its light through the transparent glass diffuser into the room, creating reflections on the surface of the lamp. In addition, light radiates directly downwards through the opening at the lower end. The Damasco SP M is available in the glass diffuser colours amber and crystal clear. This pendant lamp has a diameter of 15 cm and a height of 25 cm. It is offered as an E27 and LED lamp. The E27 lamp is also suitable for LED retrofits. The LED lamp has an integrated LED with a colour temperature of 2,700 Kelvin extra warm white and is dimmable with a trailing edge phase dimmer. On request, it is also available with a colour temperature of 3,000 Kelvin warm white or 0-10 Volt dimmable. The cable of the pendant lamp can be shortened if necessary. With the supplied ceiling hook, the pendant lamp can also be mounted independently of the power outlet.
