Omschrijving

The Siam 200 is manufactured by the Spanish company Bover and is based on a design by Joana Bover. The ceiling bracket of the Bover Siam 200 is made of metal and is available with a nickel surface. The light of this ceiling lamp is emitted centrally directly downwards and spreads simultaneously all around to the sides and to the ceiling. The Bover Siam 200 has a diameter of 200 cm, the total height of this ceiling lamp is 72 cm. The light's small distance of only 37 cm from the ceiling creates a radiant circle of light on the ceiling. This lamp with a lamp shade height of 35 cm is available in the shade colours white and $\,$ cream. The Bover Siam 200 has eight E27 sockets and can be operated with LED retrofit lamps. This on-site dimmable lamp is the bigger of two versions of the Bover Siam 200. With its light distribution and size, the ceiling light is particularly suitable for large rooms.
