Omschrijving

The Lumina Eve is a table lamp with indirect lighting. The lamp consists of a transparent glass cylinder with an aluminum lamp base. An LED is integrated in the base, so the light is emitted upwards onto a reflector made of metal. A touch dimmer on the lamp base allows the lamp to be dimmed continuously. With a short touch the table lamp is switched on and off, with a longer touch it is dimmed. The Eve from Lumina has an integrated LED as a light source with a colour temperature of 2,700 Kelvin, on request it is also available with 3,000 Kelvin warm white. The Eve is offered with two surfaces for the lamp base: brass and black. All surfaces offered are anodised, i.e. the material is provided with an oxidic protective coating using a special surface technology.
