### **Omschrijving**

This Brokis Knot Cilindro Table lamp is supplied with a smoke grey, hand-blown glass. On the bottom of the glass, a reflector made of high quality metal is integrated. The reflector is handcrafted during production and is available in the following colours: brass, brushed stainless steel, copper and black. As a special feature of the Knot Cilindro Table lamp, the natural coloured textile cable extends through the light and is tied in a knot at the top of the lamp. An LED with a colour temperature of 2,700 Kelvin extra warm white is integrated as the light source. This LED can be dimmed through the integrated cord dimmer. The Knot Cilindro Table PC1078 is also offered in smoke brown, transparent or opal glass. The cable colour of the supply line is black, but also available in light grey on request.

Each light will be packaged and shipped with a quality paper envelope containing the installation manual, white cotton gloves for gentle handling of the light, a certificate of authenticity, and the BROKIS Small Catalogue. Upon opening the box, you'll find a QR code that will take you to a brief video on how to safely unpack your new light and get started as well as detailed information on how to properly clean BROKIS lights.
