Omschrijving

The Serien Lighting Slice2 Furniture is ideal for illuminating work surfaces, as the light emitted downwards is distributed and dazzled by prismatic acrylic glass. Upwards, the light is emitted broadly so that it remains absolutely glare-free even at full power.

The Slice2 Furniture has a height of 113 cm. It is available in bright chrome, black, silver and white finishes. It is also offered in two versions:

- Version 1: with push button dimmer
- Version 2: with push button dimmer and motion and daylight sensor

The push button dimmer is located on the lamp head. A memory function saves the last brightness level set and automatically sets it again when the lamp is switched on again. As standard, the recessed table lamp is supplied with a colour temperature of 3,000 Kelvin warm white. On request, it is also available with 4,000 Kelvin white.
