Omschrijving

The anthracite-coloured SLV Enola Square S CL is made of aluminium and emits its light glare-free through a glass lens directly downwards. This rectangular LED ceiling light with an output of 9 watts is 8.6 cm long, 8.6 cm wide and 12.5 cm high. In the ceiling bracket of the SLV Enola Square S CL there is a switch (CCT Switch) with which the colour temperature of the lamp can be changed from 3000 Kelvin warm white to 4000 Kelvin white during installation if required. With IP65 protection, the Enola Square S CL by SLV is ideal as an outdoor lamp, as it is dust-proof and protected against water jets from any angle.
