Omschrijving

The Grupa Arigato Ceiling Double Long is a ceiling light with two jointed arms that can be adjusted independently of each other. It is the larger of two ceiling lights with two jointed arms. Each jointed arm consists of two parts, each with a length of 55 cm. The two lamp shades can be rotated 360 degrees and swivelled 125 degrees. This lamp is mounted directly on the ceiling. At the bottom of the lamp shades, diffusers are integrated, thanks to which the light is emitted glare-free downwards.

The Arigato Ceiling Double Long is available in the surfaces black or white matt powder-coated. On request, the lamp is also offered in other finishes. The Arigato Ceiling Double Long has E27 sockets and is suitable for halogen lamps as well as for LED retrofits. Grupa also offers ceiling lights from the series with a single jointed arm or with two shorter jointed arms.
