

Steng

Small Brigg 2 LED

Oberfläche

- aluminium
- zwart
- wit

Farbtemperatur in Kelvin

- Dim to warm
- 2.700 extra warm wit
- 3.000 warm wit

Technical details

Land van fabricage	 Duitsland
fabrikant	Steng
ontwerper	Peter Steng
ontwerper 2	Andreas Steng
bescherming	IP20
Omvang van de levering	LED
voltage geschiktheid	230 - 240 Volt
Diepte in cm	7
materiaal	aluminium
dimmen	dimbaar met fase- en fase-afsnijding en fase-regelingsdimmer
Wattage	11 W
LED	inclusief
Kleurweergave-index	>90
Lichtstroom in lm	1.692
Dimensions	H 6 cm B 20 cm

Omschrijving

The Steng Small Brigg 2 LED wall lamp emits its light simultaneously upwards and downwards. Part of the light is emitted in both directions onto the wall, from where it is then reflected into the room. Thanks to the high-quality reflector technology, the light emission is glare-free. This wall lamp has a width of 20 cm and a height of 6 cm. Its depth is 7 cm.

The displayed picture shows the product with light distribution upwards instead of upwards and downwards.

The Steng Small Brigg 2 is available in the surfaces aluminum, black matt and white matt. All surfaces have a fine structure. Other RAL colours are also available on request. Depending on the version, an LED with an output of 11 or 9 watts is integrated as the light source, which is characterised by very good colour rendering with a high colour rendering index of Ra >90.

The Small Brigg 2 can be dimmed on site with a trailing edge and / or leading edge phase dimmer. On request, the wall lamp is also available DALI dimmable. It is available from Steng with three colour temperatures: with a colour temperature of 2,700 Kelvin extra warm white, with 3,000 Kelvin warm white or with Dim-to-warm technology. With the Dim-to-warm function, the light colour of the LED changes to a warmer tone when dimmed (from 3,000 Kelvin warm white to 1,800 Kelvin extra warm white). The two lamps with 2,700 or 3,000 Kelvin each have an LED with an output of 11 watts and a colour rendering index of Ra >90, the lamp with Dim-to-warm technology has an output of 9 watts and a colour rendering index of Ra 95.
