## Anchoring for foundation Moai B

### Technical details

<b>Land van herkomst</b>	 Spanje
<b>Fabrikant</b>	Bover
<b>materiaal</b>	staal

### Omschrijving

If you want to anchor the Bover Moai B outdoor lamp reliably in the concrete, the use of a foundation anchor is practically indispensable. This way, the construction gets the right hold to be prepared against impacts (e.g. by wind). With this foundation anchor, the bollard light Bover Moai B in both sizes can be firmly anchored into the foundation.
