

Knapstein

MEGGI

Oberfläche

- nikkel
- bronzen

Technical details

Land van herkomst	 Duitsland
Fabrikant	Knapstein
jaar	2024
diepte	7
diameter	30
Materiaal	Acryl, Metaal
Dimbaarheid	gebarencontrole
Vermogen in watt	17 W
LED #	inclusief
Kleurweergave-index (CRI / Ra)	>90
Lichtstroom in lm	1904
Kleurtemperatuur in kelvin	2.200 - 3.500
Beschermingsklasse / IP-bescherming	IP20
Leveringsomvang	LED
voltage geschiktheid	230 - 240 Volt
bulb vervangen:	bij de fabrikant / fabriek
Dimensions	Ø 30 cm

Omschrijving

The Knapstein MEGGI is equipped with a sensor dimmer that can be used to switch the lamp, dim it continuously and change the light colour. This sensor is located in the front part of the reflector. Simply swipe the sensor to switch the lamp on or off. The light colour of the lamp can be adjusted to a warmer tone (from a colour temperature of 3,500 Kelvin warm white to 2,200 Kelvin extra warm white). All dimming and light colour settings are saved using the memory function and automatically reset the next time the light is switched on. The tilt and turn joint on the reflector allows the light to be aligned and positioned as required. The Knapstein MEGGI emits indirect light, has a diameter of 30 cm and is 7 cm deep. The rotatable and tiltable reflector of this wall light has a diameter of 15 cm. The Knapstein MEGGI is available in several surfaces.
