Omschrijving

The Holtkötter Naxos floor lamp made of aluminium is 184 cm high and has a swivelling and tilting lamp head with a diameter of 31 cm. The round base with a diameter of 27.2 cm ensures that the lamp is very stable. The flat lamp head with integrated diffuser and side slit can be rotated and swivelled and directs its light upwards, downwards or to the side as required. The light can be infinitely adjusted using a touch dimmer attached to the centre of the lamp rod. When dimmed, the light colour of the integrated LED changes to a warmer tone (from 2,850 Kelvin warm white to 2,200 Kelvin warm white) thanks to dim-to-warm technology. Holtkötter Naxos is available in the following surface textures: Matt aluminium, white, black/anodised brass, bronze, black, anodised brass and platinum.
