## Flo Grommet F46

### Oberfläche

- Brązowy metalik
- złoty
- gunmetal
- nikiel szczotkowany
- czerwony
- czarny
- biały

### Technical details

<b>Kraj produkcji</b>	 Włochy
<b>Producent</b>	Lumina
<b>Projektant</b>	Foster+Partners
<b>Stopień ochrony / Stopień ochrony IP</b>	IP20
<b>Zawartość opakowania</b>	LED
<b>napięcie przydatność</b>	110 - 240 Volt
<b>Projekcja w cm</b>	39
<b>tworzywo</b>	aluminium, stal
<b>ściemnianie</b>	2-stopniowy ściemniacz
<b>Moc w watach</b>	6 W
<b>LED</b>	Łącznie
<b>Wskaźnik oddawania barw</b>	>90
<b>Strumień świetlny w lm</b>	500
<b>Temperatura barwowa w stopniach Kelvina</b>	2.700 extra biała ciepła
<b>dystrybucja światła</b>	bezpośrednio
<b>Dimensions</b>	H 43 cm

### Opis

The Lumina Flo Grommet F46 is one out of two Flo table lamps thought to be directly embedded into the table plate to save space. Please note that this lamp is suitable for mounting it into tables with a maximum plate thickness of between 10-13 mm. The drilling has a diameter of 4.6 cm. The Flo family is the result of the first cooperation of Lumina and Foster & Partners. The design is minimalist and timeless integrating fine details into a slim shape. The idea was to create a functional reading light embedding the latest LED technology into a simple floating shape. The modern elegance of the Lumina Flo Grommet F46 is achieved not only through the sophisticated shaping but also through the omission of external mobile parts like coils or springs.

The Flo Grommet F46 is made of aluminium and steel offered in a variety of surfaces and colours. This light is controlled via the switch attached to the lamp head. This switch offers three positions being: Off, 100% light intensity and 50% light intensity. One 6 watt LED with 2.700 Kelvin and is integrated into this lamp. On request you can order this lamp also with a colour temperature of 3.000 Kelvin. If you like to order this article, please specify the Kelvin colour temperature of the lamp under the item Order Review in the field Order Comment.
