Technical details

Kraj produkcji	 Włochy
producent	Luceplan
projektant	Alberto Meda, Paolo Rizzatto
rok	1985
ochrona	IP20
zakres dostawy	Leuchtmittel/Bulb
napięcie przydatność	110 - 240 Volt
tworzywo	aluminium, nylon
pedestał/wersja	GY6.35
Możliwość zmiany trybu	na głowie oprawy
Moc (maks. W)	10 Watt
długość ramienia	80 + 30 cm
świeczniku Wymiary	15 cm
Głowica lampy Wymiary	10 cm
dystrybucja światła	bezpośrednio

Opis

The Luceplan Berenice Terra floor lamp is equipped with two mobile light arms, which can be freely rotated and swiveled. This lamp is offered in different surfaces and with different reflector colours. The reflectors in yellow, sage green, rose or satin white are made of glass, the reflectors in aluminum, brass and black are made of metal. The light is emitted mainly directly, depending on where the light arm is rotated. Only a small portion of the light is directed into the room for the variants with glass reflector through the reflector.

There is an on / off switch on the light head. Since the current is directed through the lighting rods to the light head, no cable in the lighting rods are seen. The light can be operated with halogen lamps or LEDs. The lamp was designed in 1985 by Alberto Meda & Paolo Rizzatto.
