Marset

Theia M

Oberfläche

- czarny
- biały

Technical details

Kraj produkcji	🇪🇸 Hiszpania
producent	Marset
projektant	Mathias Hahn
rok	2016
ochrona	IP20
zakres dostawy	LED
napięcie przydatność	230 - 240 Volt
tworzywo	aluminium, metakrylan, metal
kolor przewodu	czarny
długość kabla	150 cm
ściemnianie	Ściemniacz dotykowy na głowicy oprawy
Moc w watach	11,3 W
LED	Łącznie
Wskaźnik oddawania barw	90
Strumień świetlny w lm	1.019
Temperatura barwowa w stopniach Kelvina	2.700 extra biała ciepła
Średnica klosza	32 cm
świeczniku Wymiary	30 cm
Dimensions	H 44 cm

Opis

The Marset Theia M table lamp has a lamp shade consisting of two hemispheres. One hemisphere is made of lacquered metal and is white inside. It is fixed vertically, the other horizontally, so that they partly overlap. The horizontal hemisphere is made of thermoformed smoked glass methacrylate. An LED is integrated in the centre of the shade, which emits its light onto the white inside of the vertical hemisphere. From there, the light is reflected directly into the room without glare and also through the horizontal, transparent hemisphere. The table lamp can be turned around its own axis and readjusted at any time with a handle on the light rod: either to emit light as a reading lamp or to create indirect lighting. The vertically mounted hemisphere is available in white or black from the outside. The painted metal rod and base are also in the matching surface. The Theia M can be switched and dimmed by pressing a push button dimmer on the lamp head.
