### Opis

The spherical pendant lamp Brokis Sfera 400 is made of mouth-blown, matt opal glass. The metal suspension is attached to the upper part of the lamp. The suspension is available in the following colours: black, with matt powder coating and white, with matt powder coating. The canopy is always in the same colour as the suspension. The lamp with black suspension has a black textile cable, the lamp with white suspension has a white textile cable. This spherical pendant lamp has a diameter of 40 cm and a total height of 254 cm. On request the pendant lamp Brokis Sfera 400 is also available in other overall heights. Special connectors developed by Brokis ensure a perfect fit between glass and metal, making installation, maintenance and cleaning easy.

Each light will be packaged and shipped with a quality paper envelope containing the installation manual, white cotton gloves for gentle handling of the light, a certificate of authenticity, and the BROKIS Small Catalogue. Upon opening the box, you'll find a QR code that will take you to a brief video on how to safely unpack your new light and get started as well as detailed information on how to properly clean BROKIS lights.
