

Bover

Lineana V-brown

Technical details

Kraj produkcji	 Hiszpania
Producent	Bover
Projektant	Christophe Mathieu
rok	2010
Stopień ochrony / Stopień ochrony IP	IP66
Zawartość opakowania	Leuchtmittel/ Bulb
napięcie przydatność	110 - 240 Volt
Głębokość w cm	10
tworzywo	aluminium, poliwęglan, stal nierdzewna
powierzchnia	brązowy
ściemnianie	na miejscu z funkcją ściemniania
Cokół / Oprawka	G9
Wersja	-
wydajność systemu	2 x 9 Watt (max.)
dystrybucja światła	pośrednio
Dimensions	H 38 cm L 21 cm

Opis

The Lineana V wall lamp was created by the designer Christophe Mathieu and is manufactured by the Spanish manufacturer Bover. The metal strips running across the lamp ensure that the light is emitted upwards, downwards and to the sides and front. Thanks to the use of IP66 protection class, this wall lamp is weatherproof and protected not only against splashing water but also against water jets and UV radiation. The Bover Lineana V wall lamp is provided with additional protection against oxidation in epoxy polyester and is available in graphite brown or graphite grey. The wall-mounted part of the rectangular Lineana V is 37.6 cm high, 14 cm wide and 10 cm deep. The length of the metal slats running along the front is 21 cm. The on-site dimmable lamp has two G9 sockets, the lamps are replaceable.
