## Opis

The Less'n'more Zeus Surface / Recessed Light Z-AL2 is a table lamp that is mounted into the table. A mounting plate with a diameter of 6 cm serves as the lamp base. The lamp can also be used as a wall or ceiling lamp. An external transformer is included and can only be mounted from behind outside the mounting plate. The flexible lamp arm of the table lamp can be stretched and bent as desired so that it can be realigned at any time. At maximum extension of the lamp arm, the lamp has a height or length of 53 cm. The flexible lamp arm is available in the following colours: aluminum, textile black, white, anthracite, blue, green, red and brown.

The lamp head and mounting plate are offered in the surfaces aluminum and black. A focusable glass lens is integrated in the lamp head. The beam angle of the light can be continuously adjusted between 15 and 75 degrees by turning this glass lens out of or into the lamp head. With a larger beam angle, the light is distributed over a larger area.

The Zeus Surface Mounted / Recessed Light Z-AL2 has an integrated LED with a colour temperature of 2,700 Kelvin extra warm white. The table lamp is offered dimmable on site with a trailing edge phase dimmer or with an integrated push button dimmer on the mounting plate. The version with push button dimmer can be switched and dimmed via the push button. Its flexible lamp arm is available in other colours on request. In addition to this recessed lamp, Less'n'more also offers a smaller lamp from the Zeus series with a maximum height of 22 cm.
