Opis

The Loom Design Ask wall lamp emits its light both upwards and downwards. In both directions, the lamp has a beam angle of 55 degrees, creating cones of light at the top and bottom of the wall. The solid design of the lamp is broken by the vertical slit in the centre of the lamp. The wall lamp is made of die-cast aluminum and is offered in white or black finishes. It has a height of 11.5 cm and a width of 16.5 cm. Its depth is 8 cm. Above and below in front of the light source, clear safety glass is integrated, which is particularly shock and impact resistant as well as insensitive to temperature differences. The integrated LED has a colour temperature of 2,700 Kelvin extra warm white. Thanks to the IP65 protection rating, the Ask wall light is dustproof and protected against water jets from any angle.
